## **DETAILED ACTION**

### ***Acknowledgements***

The Applicants papers filed on May 7, 2007 is acknowledged, Claims 1-4,6-8,10-14 and 17-18 are pending .

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-4,6-8,10-12 and 17-18 are drawn towards a secure transaction, classified in class 705 subclass 67.
  - II. Claims 13 and 14 are drawn to a system for secure transaction, classified in class 705 subclass 67.

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed in invention I does not require the particulars of the subcombination as claimed in inventions II such as a restricted item and a store attendant., Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3621

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
